Uniform Washing Instructions

Thank you for your help in washing the marching uniforms. Please follow the below instructions to help ensure a smooth transition back to students for their next performance.

- Take the uniforms out of the bags to wash. Please check the individual part numbers against what is on the card in pocket. If you noticed any wrong numbers please write on a separate piece of paper and insert in pocket. Please **DO NOT** change any numbers on any of the cards.
- Separate the Jackets, Bibs and Gauntlets (wrist covers). Remove the Baldric (the sequined strip snapped on the jacket), do not wash the Baldric.
- **IMPORTANT: Please** leave socks gloves or other personal items in the garment bag. Do NOT remove unless you note which bag it came from so it can be returned to same bag. Some students keep extra gloves and we don't want them getting charged for replacements.
- Spot treat stains with Shout or other mild pre-wash spot treatment.
- Wash the uniform parts using mild Unscented/Dye Free detergent (i.e. Woolite) on the Gentle Cycle.
- Wash no more than 5 Bibs and 5 Gauntlets together. Turn the Jackets inside out prior to washing, washing no more than 5 together.
- Dry the parts for 20 minutes on a Low/Warm setting, hang to finish drying. When the jackets are dry match them up with the right baldrics and snap them back on.
- Reassemble the uniforms back into the garment bags complete with all the parts that came in the bag.
- Please have the hangers opening to the right - **HOOK TO THE LOGO** (kids are familiar with this term. The opening of the hanger hook should be facing the MS logo on the bag).
